INTRODUCING T5 GAS TILT SKILLET

Model Shown: SGL30T5

- **15% More Efficient**
Enhanced Insulation Pan keeps heat where it belongs
- **450° in 5 Mins**
Less waiting, more serving. Reach full cooking temperature faster than ever
- **7" easyTouch Control**
Intuitive full-color touchscreen puts complete cooking control at your fingertips
- **Dual-Console Design**
Water and power lines run in completely separate consoles
- **Precision Pan Tilt**
Adjust the pan angle on demand for effortless controlled draining
- **Spring-Assisted Lid**
Easy-to-reach handles and counterbalanced lift make opening and closing second nature
- **Seal Gasket Lid**
Locks tight at any temperature with built-in steam exhaust

- **Integrated Water Faucet**
Hot and cold mixing valve built right into the unit
- **Ratcheting Retractable Hose**
Extends when you need it, retracts when you don't. Fast to fill, easy to rinse
- **Built-In TD Drain Valve**
Instant straining with no extra tools, steps or additional add-on costs
- **Lid-Mounted Product Probe**
Always positioned, always ready. Monitor internal product temperature in real time
- **Expanding Accessories Lineup**
Fry baskets, scooper, spaddle, hotel steam pan, and more... Purpose-built accessories that expand what the NovoPan T5 can do

Innovation You Can Cook With.
