

Pressure boiler and steam generator maintenance is the responsibility of the owner-user and is not covered by this warranty. The use of good quality feed water is the responsibility of the owner-user (see Water Quality Requirements). **The use of poor quality feed water will void equipment warranties.** Boiler maintenance supplies, including boiler hand gaskets, are not warranted beyond the first 90 days after the date the equipment is placed into service. Preventive maintenance records must be available showing descaling per applicable Cleveland Operator Manual for Boiler Proration Program considerations.
